HOME STAGING & DESIGN CONSULTATION

Make Your Listing Stand Out

A well-organized and staged home sells much quicker than a standard listing. Our designer will consult with you and your seller on your occupied or vacant property. A detailed checklist will be provided within 2 business days to you and your seller with staging suggestions that will make their home appeal to as many buyers as possible.

Furniture staging can be completed by hiring the designer separately — just let them know you'd like to stage!

We also offer Virtual Staging! Prices start at \$45 per image. Please complete the 'contact' form on our website and request more information!
